Information that may be required as part of a Development/Grading/Fill Permit Application may include the following:

- (1) Plans showing the location, dimensions, and elevation of existing and proposed structures and proposed landscape alterations and the location of the foregoing in relation to areas of special flood hazard.
- (2) Elevation (in relation to mean sea level), of the lowest floor (including basement) of all new and substantially improved structures;
- (3) A certificate from a registered professional engineer or architect that the nonresidential flood-proofed structure shall meet the flood-proofing criteria;
- (4) Plans showing the extent to which any watercourse or natural drainage will be altered or relocated as a result of proposed development;
- (5) A drainage analysis and a grading plan.
